Skills You Will Attain

Brow Lamination:

You will be given written instructions and video tutorials on the step-by-step process of brow lamination. Our video tutorials include models with full brows, sparse brows, uneven brows and Asian brows. They all need to be treated a little differently.

Brow Shapes and Mapping:

Eyebrow shaping can enhance the shape of your face and draw attention to your eyes. By shaping your eyebrows, you can create a more symmetrical look and make your eyes appear larger. This can draw attention to your best features.

While you would not necessarily do full brow mapping for lamination services, it is useful to know how to do it if you get someone with very uneven brows. If you mark them before you do the lamination it will help you even them up, i.e. one may need less lifting than the other to make them look the same.

Brow Preparation and Aftercare

Preparation for brow lamination is just as important for the brow technician as it is for the client to ensure a thorough service, great results and client retention.

To ensure that your clients' brows stay clean and intact after the brow lamination service it is imperative that you inform your clients of the best advice for aftercare. This can be done verbally and enforced with a take home card for them to refer to.

FREQUENTLY ASKED QUESTIONS

Can I Start A Business?

This course is best suited for someone looking to start a business in Brow Lamination, whether at home or in another setting, providing services to their own clients.

At the end of the course, you will have professional Brow Lamination skills that you can earn a living from by providing services in Brow Lamination.

If you are purchasing our product kit, you will have all of the products and equipment you need to perform services on your own - all of our products are professional grade salon products and brands.

We have been delivering skills courses in beauty and hair for 15 years now, and by far the most popular option for our students is to start their own business.

Many work from home around their other commitments and some start stand alone salons. We even have students who work in the industry doing mobile services. It's entirely up to you and what suits your lifestyle.

From our experience with thousands of students, starting a business gives you the most freedom and flexibility, while maximizing your income.

Can I Get A Job?

As there is no licensing or formal education requirements in Australia, you can get a job working in a salon with our certificate.

But, like any job, it's going to depend on your skill level and whether a salon/ business owner decides you are a fit for their team. We cannot guarantee a job after completing our courses.

Salons differ, and there are many that only hire individuals with accredited qualifications or those who have completed apprenticeships.

And some will only let you do an apprenticeship with them as apprentices are on much lower wages, plus there is government funding for the salon.

So if you are looking to work at a particular place, then ask them first if our certificate will be enough or discuss it further with our Student Enrolment Advisers.

QUALIFICATIONS

Certificate of Completion

On successful completion of our Brow Lamination Certificate Course, you will receive a certificate of completion.

This is all you need to demonstrate your skills, work in the industry, get insurance or start a business.

You do not need an accredited training program or apprenticeship in Australia.

Licensing & Regulatory Information

The Hair & Beauty Industry in Australia was deregulated in 1986. As there are no licensing requirements, it is no longer a legal requirement to undertake an accredited course to be able to work in the beauty industry or own/run a salon. This is also the case in many other countries, and many more countries currently in the process of deregulation.

As it says on the Australian Governments Training Website:

No occupational licensing, certification or specific legislative requirements apply to this qualification at the time of publication.

See Here: <https://training.gov.au/Training/Details/SHB50121/qualdetails>

This means that many other training avenues have opened up for those interested in entering the beauty industry at a fraction of the price and with far less time restraints than traditional training.

Many RTO's now offer short courses alongside their accredited courses for those who do not have the time or money for the more formal qualification, or for those who just simply want to test the waters before they do commit to the higher qualification.

So just to clarify, if you are in a country like Australia, where there is no licensing requirement our Certificate is all you need to work in, or own and run a salon.
