ADVANCED CHEMICAL
TREATMENTS FOR HAIR

WWW.NIB.EDU.AU

WHAT ARE ADVANCED CHEMICAL TREATMENTS?

Advanced chemical treatments are professional services designed to transform the internal structure of the hair. These are the specialised services that **reshape, restore, and reinvent hair**.

Whether it's smoothing frizz with keratin, correcting uneven colour, or creating seamless multi-tonal blends, these treatments require technical knowledge and precision. This course teaches you how to safely and confidently deliver some of the most in-demand salon services—from **straightening and relaxing to advanced colour work and restorative solutions**.

You'll learn to diagnose the hair and scalp, plan the right treatment pathway, and customise every service for the client in your chair.

Prerequisite for Enrolment

This course isn't about learning the basics. It's designed specifically for those who **already have a foundation in hairdressing**.

To get the most out of this course, and to ensure client safety, students **must hold a Certificate in Hairdressing (or equivalent qualification)**.

This ensures that every student begins with the essential knowledge of hair structure, colour theory, sectioning, and client consultation—so you're fully prepared to work with professional-grade chemicals and deliver consistently great results.

COURSE OVERVIEW

This course is built for hairdressers ready to take their technical skills to the next level. You'll learn how to deliver high-performance chemical treatments including keratin straightening, Nano Plastia, colour correction, and more with total confidence and control.

You'll go beyond technique, gaining the knowledge to assess the condition of each client's hair and scalp, select the right treatment for their goals, and safely apply professional-grade products that deliver lasting results.

Course Duration	6–8 weeks
Access	Lifetime access to course materials
Support	Trainer support 7 days a week
Learning Format	100% online, self-paced
Assessment	Practical app uploads + personalised video feedback
Certificate	Certificate of Completion

Career Pathways

Work From Home: More and more people are now looking for the flexibility and freedom of working from home. Setting up and running your own home salon can be the perfect way to earn a great income while working your own hours.

Work in a Salon: The hair industry is always busy and like a lot of industries at the moment, Hair Salons just can't get enough good staff who can deliver great services. With the right skills, you can fill the void and earn a great living doing what you love.

Start a Salon: If you're up for an adventure, then starting your own stand alone Hair Salon may be for you. There are more upfront costs and commitments, but the rewards can be enormous. Your first step is gaining the right skills!

Rent a Chair: A popular option that gives you the presence of a salon, without the setup cost. Many salons have spare space and will rent out that space and chair to skilled Hair technicians to do their thing! You can be up and going in no time.

CONTENTS

Course Modules and Skills

Module 1: Colour Theory

Foundations in tone, depth, and chemical interactions

Module 2: Balayage

Advanced hand-painting for seamless, blended results

Module 3: Creative Colour & Multi-Colour Foils

High-impact looks through strategic foil placement

Module 4: Scalp Bleach

Full-head lightening with a focus on scalp safety and even lift

Module 5: Colour Correction

Neutralising unwanted tones, fixing banding, and restoring balance

Module 6: Perming

Classic and modern curl techniques, wrap styles, and chemical control

Module 7: Keratin Hair Straightening

Smoothing and realigning hair structure using keratin-based products

Module 8: Nano Plastia

Amino-acid based straightening system that's formaldehyde-free

Module 9: Botox for Hair Relaxing

Deep hydration and frizz control with minimal structural change

Module 10: Choosing the Correct Products for your Client

Consultation, diagnosis, and choosing the right product for the client's needs

If you have any doubts at all about whether this course will work for you, then we have a 30 Day, No Questions Asked, Money Back Guarantee. So you can try it out and if you decide it's not for you, just let us know and you can cancel with a full refund.

FAQS

You May Be Asking These Questions...

Can I Start A Business?

Yes. This course is ideal for stylists who want to offer advanced chemical treatments as part of their own business, whether that's from home, in a shared space, or as a mobile service. We've been delivering beauty and hair courses for over 16 years, and by far the most popular path for our students is starting their own business. Many work around their family or other commitments, offering flexible, personalised services that suit their lifestyle and maximise their income.

Will I have everything I need to get started?

If you purchase the optional product kit, you'll receive all the tools and professional-grade salon products required to perform treatments confidently from day one. Everything has been selected by our educators to support your learning and your first clients.

What if I want to work in a salon instead?

In most states, there are no licensing or formal education requirements to work in a salon, and our certificate can support you in applying for roles. That said, each salon is different. Some prefer accredited qualifications or apprenticeships due to wage structures and government funding. If you have a specific employer in mind, we recommend speaking with them directly or discussing your options with our Student Enrolment Advisers.

Can you guarantee a job after the course?

Like any course, employment outcomes depend on your skill level and whether a business owner feels you're the right fit. While we can't guarantee a job, we can confidently say this course prepares you with the practical, in-demand skills to either gain employment—or create your own opportunities.

QUALIFICATIONS

The Certificate You Receive

Certificate of Completion

On successful completion of our Advanced Chemical Treatments for Hair Course, you will receive a certificate of completion.

This is all you need to demonstrate your skills, work in the industry, get insurance or start a business.

You do not need an accredited training program or apprenticeship to provide services in Australia.

Licensing & Regulatory Information

The Hair & Beauty Industry in Australia was deregulated in 1986. As there are no licensing requirements in force, it is no longer a legal requirement to undertake an accredited course to be able to work in the beauty industry or own/run a salon. This is also the case in many other countries, and many more countries currently in the process of deregulation.

As it says on the Australian Governments Training Website:

No occupational licensing, certification or specific legislative requirements apply to this qualification at the time of publication.

See Here: <https://training.gov.au/training/details/SHB30416>

This means that many other training avenues have opened up for those interested in entering the beauty industry at a fraction of the price and with far less time restraints than traditional training.

Many RTO's now offer short courses alongside their accredited courses for those who do not have the time or money for the more formal qualification, or for those who just simply want to test the waters before they do commit to the higher qualification.

So just to clarify, if you are in a country like Australia, where there is no licensing requirement our Certificate is all you need to work in, or own and run a salon.

HOW IT WORKS

We Support You Every Step of the Way

We've been training students online in hair & beauty for over 16 years. In that time, we have perfected our online platform, content, our feedback and guidance processes to ensure students graduate with professional, salon-ready skills.

Learn from Industry Experts

Our experienced instructors aren't just industry professionals, they're dedicated educators who are here to **set you up for success**. Using our custom-built mobile **app** and unique **video feedback** tools, you'll receive tailored, step-by-step guidance designed to suit your pace and learning style.

You'll follow our proven 4-step learning process: Theory, Practice, Guidance, and Perfection, designed to build your confidence and skillset in a clear, structured way. At each stage, our team is with you, offering advice and feedback.

Theory

You will learn all of the theory you need through our online learning platform via both video content and online manuals. You will also participate in the online quizzes and have a final exam at the end of the course.

Practice

You will practice your skills step by step, starting with the foundations and moving onto the full services. We show you what to do on every step and exactly how to use the products for those services.

Guidance

We give you feedback and guidance on your work. Yes, we assess the work on each of your models and give you constant feedback on each of your skills at each step to keep you on track. Our courses are highly interactive.

Perfection

You will practice each of the services you are learning so that you are perfect. And again we will guide you all the way. If you follow our instructions and take on the feedback and guidance you will master the skills we are teaching you.
