# WHAT ARE PRO STRAIGHTENING SYSTEMS?

Pro straightening systems are designed to smooth, strengthen, and revitalise hair using innovative formulations that go beyond traditional chemical relaxers. These systems reduce frizz, add shine, improve manageability, and in some cases, realign the hair's internal structure while maintaining the hair's integrity.

In this course, you'll learn how to confidently perform three of the most in-demand smoothing treatments in the industry: **Nano Plastia**, **Hair Botox**, and **Keratin Treatments**. While each system offers transformative results, they cater to different hair types, client goals, and levels of structural change.

## Nano Plastia

Nano Plastia is a formaldehyde-free, heat-activated treatment that rebuilds the hair from the inside out.

It smooths frizz, adds shine, and strengthens weakened hair while maintaining hair health. Ideal for curly, coarse, colour-treated, or chemically processed hair.

## Hair Botox

Hair Botox is a deep-conditioning treatment that restores softness, hydration, and elasticity.

It fills in porous or damaged areas along the hair shaft, reducing frizz.

Perfect for dry, brittle, or over-processed hair in need of repair and control.

## Keratin

Keratin treatments smooth and seal the outer layer of the hair, reducing frizz and curl for a sleeker finish.

Unlike Botox or Nano Plastia, Keratin does not repair internal damage, it focuses on surface smoothing.

This semi-permanent option cuts down blow-drying time and is ideal for clients who want straighter, more manageable hair.

# COURSE OVERVIEW

This course is designed for individuals who want to confidently offer one of the most in-demand chemical smoothing treatments in the industry. **Whether you're new to hair or looking to expand your service menu**, this training will equip you with the knowledge and hands-on skills to deliver Pro Straightening treatments safely and professionally.

You'll learn how to assess the condition of the hair and scalp, identify any contraindications, and select the right approach for each client. Through a structured, step-by-step process, you'll master the application of professional-grade straightening products, ensuring consistent, long-lasting results while maintaining the integrity of the hair.

Course Duration	2 - 4 weeks
Access	Lifetime access to course materials
Support	Trainer support 7 days a week
Learning Format	100% online, self-paced
Assessment	Practical app uploads + personalised video feedback
Certificate	Certificate of Completion

## Career Pathways

**Work From Home:** Build a home-based salon that fits around your lifestyle. With the right setup and skills, you can offer professional smoothing treatments and generate strong income without the overheads of a commercial space.

**Work in a Salon:** Salons are always on the lookout for skilled professionals who can deliver high-quality services. Adding Pro Straightening Systems to your skillset makes you a valuable asset to any team and can expand your client base significantly.

**Start a Salon:** If you're up for an adventure, then starting your own stand alone Hair Salon may be for you. There are more upfront costs and commitments, but the rewards can be enormous. Your first step is gaining the right skills!

**Rent a Chair:** A popular option that gives you the presence of a salon, without the setup cost. Many salons have spare space and will rent out that space and chair to skilled Hair technicians to build their clientele and skills. You can be up and going in no time.

# CONTENTS

## Course Modules and Skills

### Module 1: OHS, Sanitation & Hygiene

The foundation of safe, professional service delivery.

### Module 2: Hair Anatomy & Client Safety

Understand the structure of hair, scalp conditions, contraindications, and overexposure risks.

### Module 3: Consultation & Client Records

How to confidently conduct a live consultation, keep accurate client notes, and meet insurance requirements.

### Module 4: Salon Setup & Essentials

Everything you need to set up at home or in a shared space: tools, products, layout, and business basics.

### Module 5: Client Experience

How to properly drape, shampoo, condition and perform a relaxing head massage.

### Module 6: Nano Plastia Live Model

Step-by-step application of Nano Plastia on a model.

### Module 7: Hair Botox Live Model

Step-by-step application of Hair Botox on a model.

### Module 8: Keratin Straightening Live Model

Step-by-step application of Keratin on models.

### Business Builder Course

Our business builder course guides you through the process of setting up the right way, if you are looking to set up a business or work from home.

This Course Covers:

Business Setup

Online Setup

Traditional / Offline Marketing

Online Marketing

## Payment Options

We have a range of payment options to suit your budget and situation - starting at \$35.00 per week.

We can also customise payment plans to suit you and help you reach your goals.

Talk to our Student Enrolment Advisors to find the best solution for you.

**Get Started From:**

**\$35.00** / Week

## OUR GUARANTEE

If you have any doubts at all about whether this course will work for you, then we have a 30 Day, No Questions Asked, Money Back Guarantee. So you can try it out and if you decide it's not for you, just let us know and you can cancel with a full refund.

# FAQS

## You May Be Asking These Questions...

### Can I use this course to start my own business?

Yes. This course is ideal for anyone looking to offer professional straightening treatments as part of their own business, whether that's from home, in a shared space, or as a mobile service. We've been delivering hair and beauty training for over 16 years, and the most common path our students take is launching their own business. Many choose to work around family or other commitments, offering flexible, personalised services that align with their lifestyle while maximising their income.

### Will I have everything I need to get started?

If you purchase the optional product kit, you'll receive all the tools and professional-grade salon products required to perform treatments confidently from day one. Everything has been selected by our educators to support your learning.

### What if I want to work in a salon instead?

In most states, there are no licensing or formal education requirements to work in a salon, and our certificate can support you in applying for roles. That said, each salon is different. Some prefer accredited qualifications or apprenticeships due to wage structures and government funding. If you have a specific employer in mind, we recommend speaking with them directly or discussing your options with our Student Enrolment Advisers.

### Can you guarantee a job after the course?

Like any course, employment outcomes depend on your skill level and whether a business owner feels you're the right fit. While we can't guarantee a job, we can confidently say this course prepares you with the practical, in-demand skills to either gain employment, or create your own opportunities.

### How much can I earn from pro straightening treatments?

You can typically charge **between \$250 to \$450 per client** for professional straightening services such as Nano Plastia, Keratin, and Hair Botox. Actual earnings vary depending on factors like hair length, thickness, and the time it takes to complete the treatment. Offering these highly sought-after services regularly can significantly boost your income potential.

# QUALIFICATIONS

## The Certificate You Receive

### Certificate of Completion

On successful completion of our Pro Straightening System Course, you will receive a certificate of completion.

This is all you need to demonstrate your skills, work in the industry, get insurance or start a business.

You do not need an accredited training program or apprenticeship to provide services in Australia.

### Licensing & Regulatory Information

The Hair & Beauty Industry in Australia was deregulated in 1986. As there are no licensing requirements in force, it is no longer a legal requirement to undertake an accredited course to be able to work in the beauty industry or own/run a salon. This is also the case in many other countries, and many more countries currently in the process of deregulation.

As it says on the Australian Governments Training Website:

*No occupational licensing, certification or specific legislative requirements apply to this qualification at the time of publication.*

See Here: <https://training.gov.au/training/details/SHB30416>

This means that many other training avenues have opened up for those interested in entering the beauty industry at a fraction of the price and with far less time restraints than traditional training.

Many RTO's now offer short courses alongside their accredited courses for those who do not have the time or money for the more formal qualification, or for those who just simply want to test the waters before they do commit to the higher qualification.

So just to clarify, if you are in a country like Australia, where there is no licensing requirement our Certificate is all you need to work in, or own and run a salon.

# HOW IT WORKS

## We Support You Every Step of the Way

We've been training students online in hair & beauty for over 16 years. In that time, we have perfected our online platform, content, our feedback and guidance processes to ensure students graduate with professional, salon-ready skills.

### Learn from Industry Experts

Our experienced instructors aren't just industry professionals, they're dedicated educators who are here to **set you up for success**. Using our custom-built mobile **app** and unique **video feedback** tools, you'll receive tailored, step-by-step guidance designed to suit your pace and learning style.

You'll follow our proven 4-step learning process: Theory, Practice, Guidance, and Perfection, designed to build your confidence and skillset in a clear, structured way. At each stage, our team is with you, offering advice and feedback.

### Theory

You will learn all of the theory you need through our online learning platform via both video content and online manuals. You will also participate in the online quizzes and have a final exam at the end of the course.

### Practice

You will practice your skills step by step, starting with the foundations and moving onto the full services. We show you what to do on every step and exactly how to use the products for those services.

### Guidance

We give you feedback and guidance on your work. Yes, we assess the work on each of your models and give you constant feedback on each of your skills at each step to keep you on track. Our courses are highly interactive.

### Perfection

You will practice each of the services you are learning so that you are perfect. And again we will guide you all the way. If you follow our instructions and take on the feedback and guidance you will master the skills we are teaching you.
